What was equally interesting in local picture circles was the "curb" adjourned meeting of the Motton Picture Exhibitors League, heid on the addewalk after yeaterday's require meeting. Just why so much feeting absuid have been expressed and whether or not the showing of as many as citait reals of pictures in one show, as some exhibitors and caused the show of testing, the public very likely is not to be let in on, but it goes without saying that there was "some time," and harmony got a joil. Three pictures only isn't a policy that will prevail here "yet a while," and there are matters of great moment likely at any time to command the attention of the exhibitors which will require unified action, therefore arguing most strongly against any division in the ranks at this time.
